Subject: RE: Terminal 4 Slip 1 Upland Facility - Transmittal of Former Rogers Terminal Cleanup Documents

Kelly-

The sand blast grit pile removal activities described in the document below are acceptable. Final approval of these activities will be wrapped into the T4 Slip 1 Source Control Decision (pending completion of SCE/SCM for all contaminant migration pathways at T4S1, including stormwater) and upland FS/ROD. Thanks for reporting on this tenant activity and the removal of potential source material from your property.

Please contact me if you have any questions.

Thanks-
Tom
